Business Question and Visualization Report

Date	24 October 2026
Team ID	
Project Name	Global Olympic Sports Performance Analysis
Maximum Marks	5 Marks

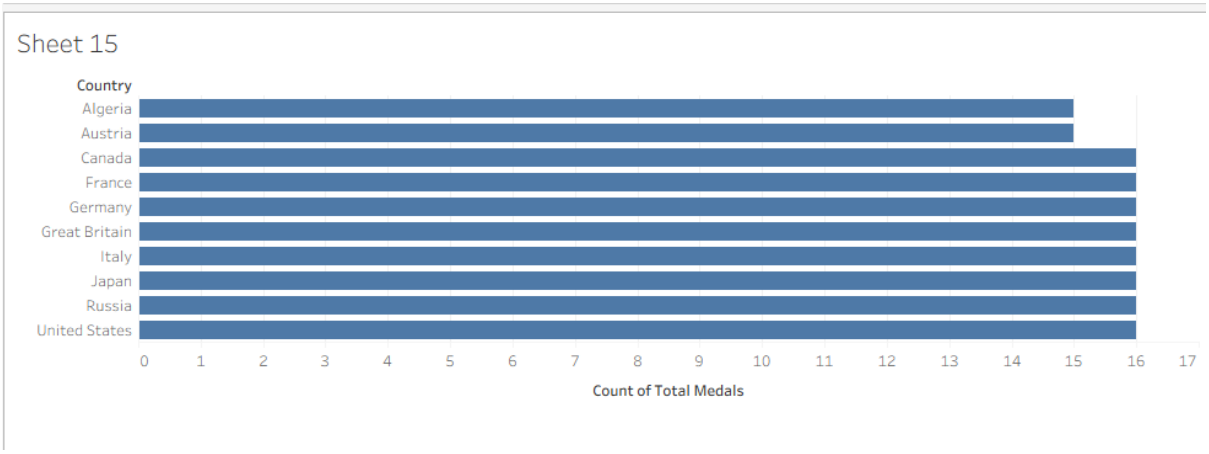

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting

Business Questions and Visualisation

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisation that provide insights.

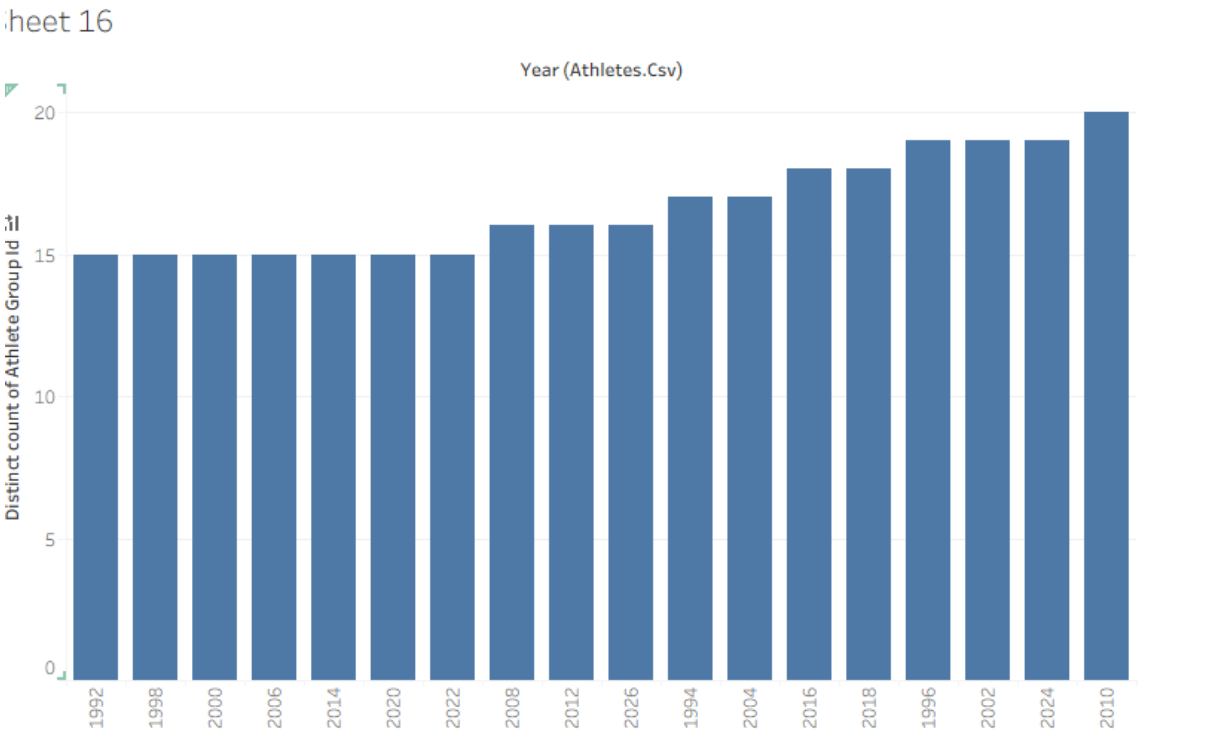

1. Which country has won the most medals historically?

Visualization: Bar chart showing Top 10 Countries by Total Medals.

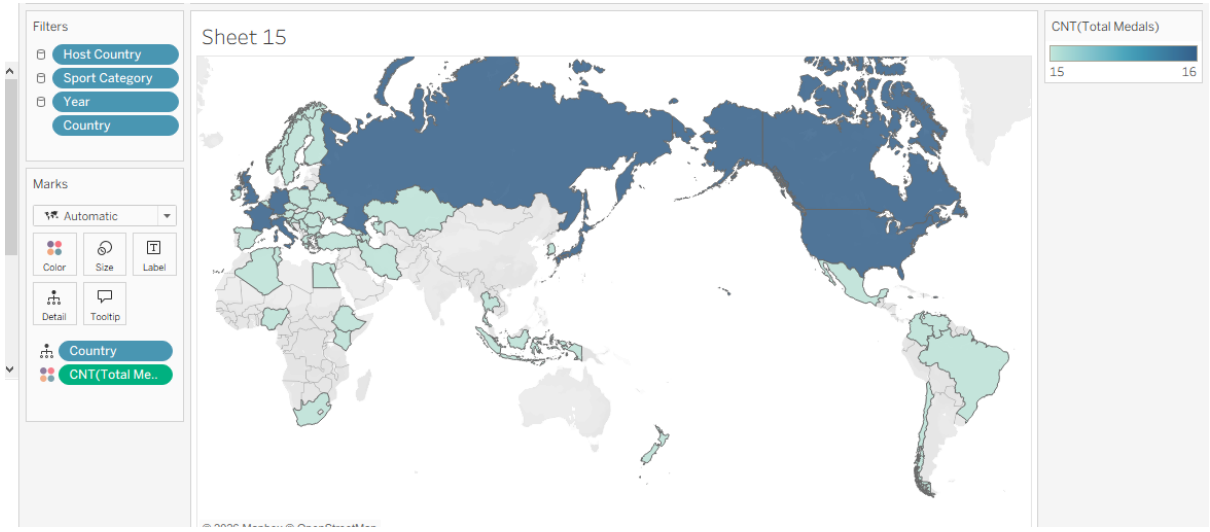

2. How has the total number of participating athletes changed over time?

Visualization: Line chart displaying Athlete Participation from 1896 to 2024.

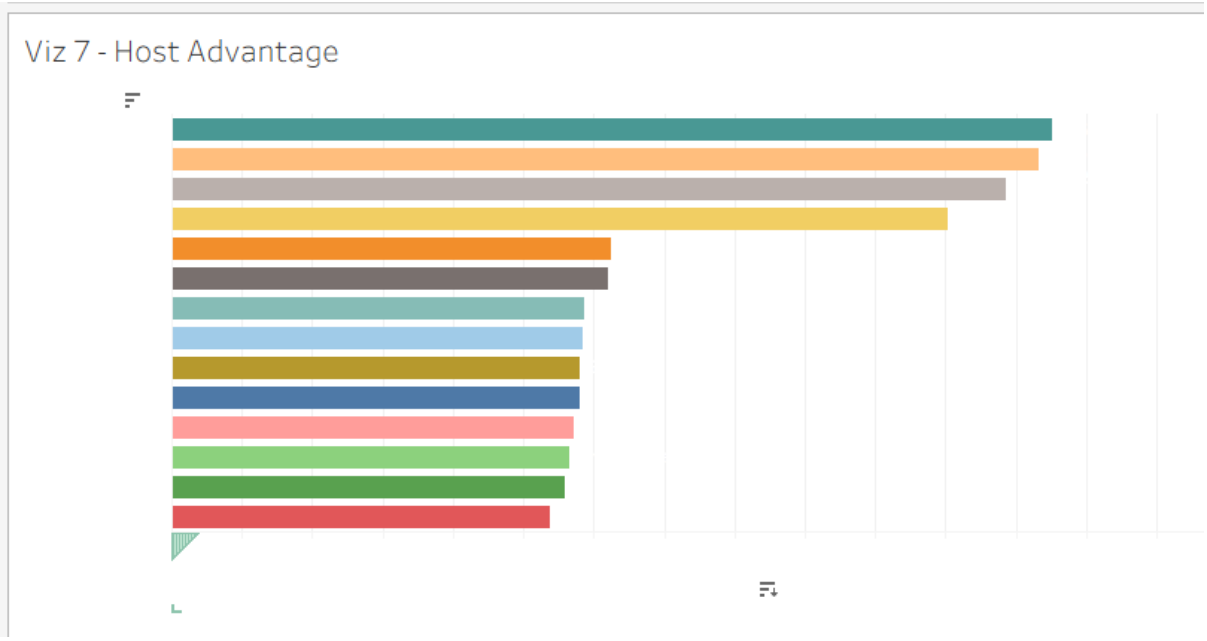

3. What is the geographic distribution of medal-winning countries?

Visualization: Filled Map / Geospatial visualization showing Global Medal Distribution.

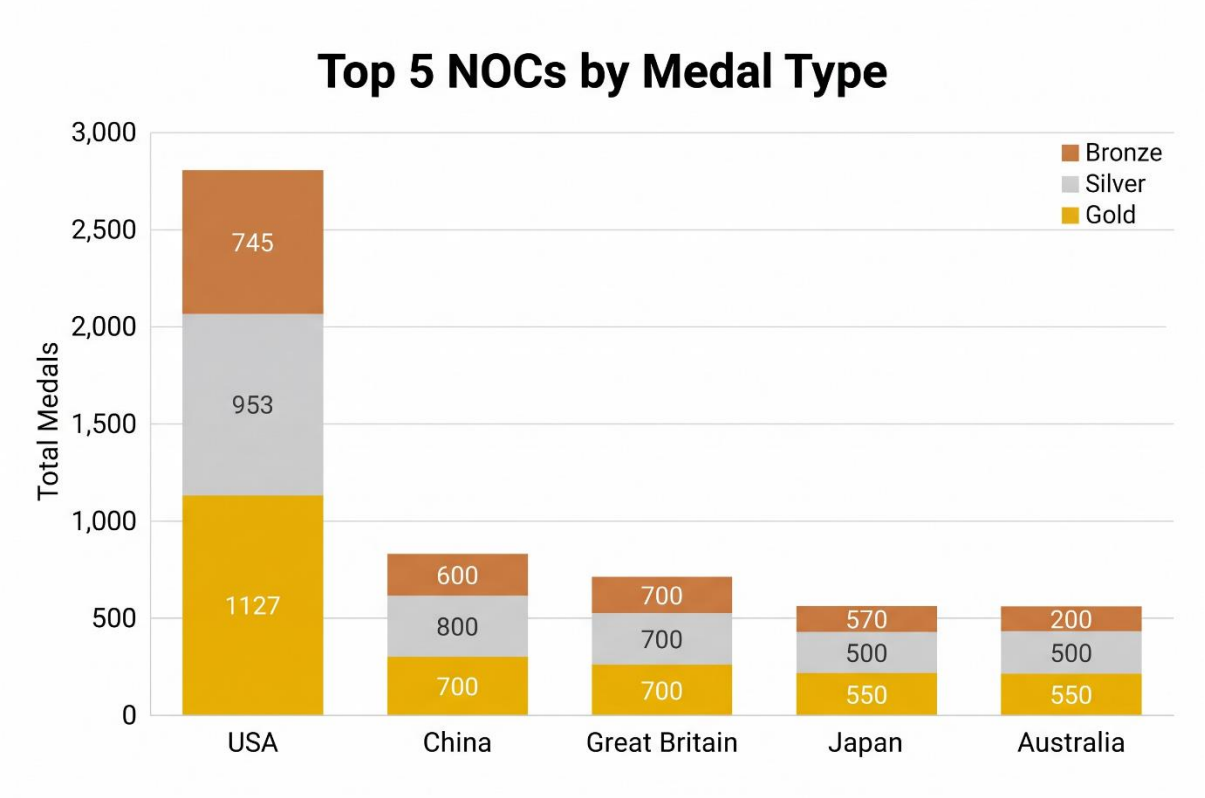

4. Does the host country have a measurable advantage in winning medals?

Visualization: Dual-axis Line/Bar Chart comparing Host vs Non-Host Medal Performance.

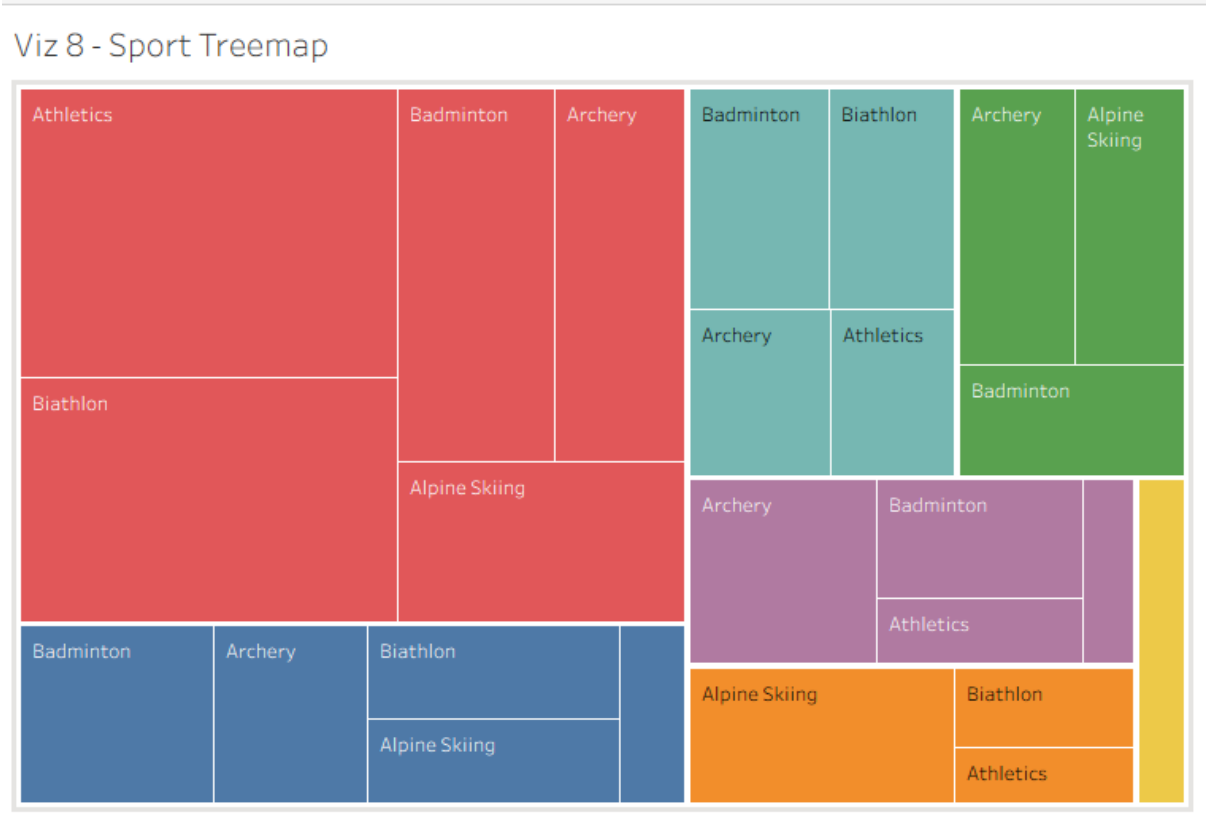

5. Question: What is the distribution of Gold, Silver, and Bronze medals for the top 5 historically dominant countries?

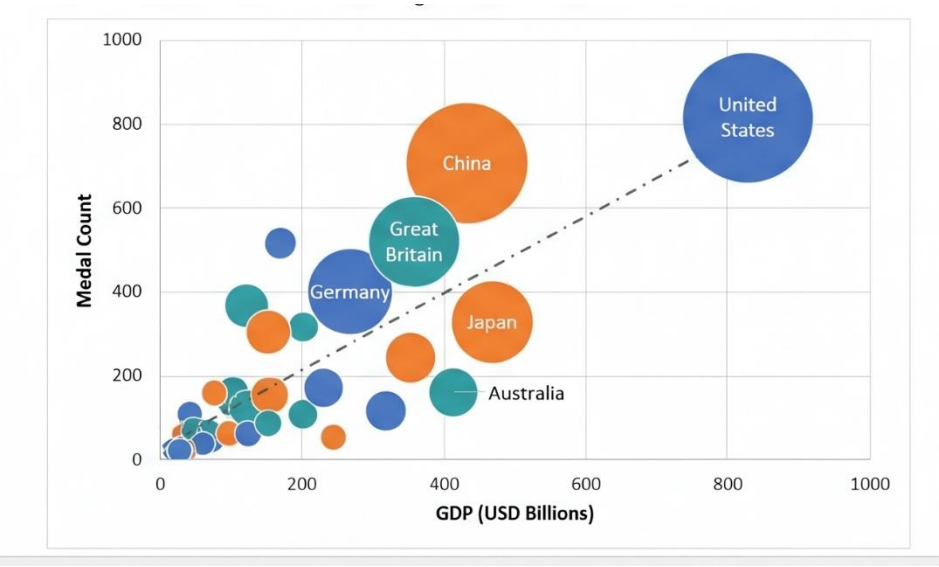

Visualization: A stacked bar chart showing the breakdown of medal types for the top 5 NOCs.

6. Which sports yield the highest number of medals for specific regions?
Visualization: Tree Map detailing Top Sports by Region/Country.

7. How does a country's GDP/investment correlate with its medal count?
Visualization: Bubble Chart illustrating GDP vs Medal Count.

8. What is the efficiency of athletes for the top nations?
Visualization: Bar Chart Highlighting Medal Efficiency Percentage by Country.
